From the Principal's Desk

Dear Aspirant,

It is a matter of joy and pride to welcome you all to Jawaharlal Nehru Rajkeeya Mahavidyalaya (JNRM) the prestigious and oldest temple of higher learning, an institution that has stood, for nearly six decades, as the pioneer of higher education in the Andaman and Nicobar Islands. In this journey of fifty-nine years, we have fostered generations of scholars, scientists, artists and public servants who carried the lamp of knowledge kindled on this campus to every corner of our nation and beyond.

JNRM holds the distinction of being the only college under the Andaman & Nicobar Administration accredited by the National Assessment and Accreditation Council (NAAC) with 'A' Grade, with a CGPA of 3.01, and ranked among the Top 150 Colleges in India under the National Institutional Ranking Framework (NIRF). These are not mere distinctions — they are affirmations of the academic rigour, institutional integrity, and the determination of our faculty members and students.

The Academic Year 2026–27 marks yet another milestone and a turning point in our institution's history. JNRM now functions as a constituent college of the Netaji Subhash Chandra Bose Institute of Higher Learning (NSCBIHL) — a Deemed-to-be University, established by the Government of India to serve as a center of excellence keeping in mind the unique geographic, ecological, and cultural uniqueness of these islands. This transition opens new vistas for interdisciplinary learning, island-centric research, and academic excellence aligned with the National Education Policy 2020.

Our campus is equipped with modern smart classrooms, outstanding laboratories, a rich library with over 62,574 volumes, Wi-Fi connectivity, indoor and outdoor sports facilities, and well-supervised residential hostels for more than 600 boys and girl students. The college also provides co-curricular activities like NCC, NSS, and a wide range of student-led clubs that ensure the holistic and all round development of every learner.

I invite every aspirant to read this Brochure carefully, choose wisely, and step forward with confidence. Admission to all programmes are conducted online through the official portal. The provisional merit list and counselling schedules shall be announced through the college website and other social media.

The journey of a thousand miles begins with one step. Let your benign step originate here, at Jawaharlal Nehru Rajkeeya Mahavidyalaya, Sri Vijaya Puram, A & N Islands.

Dr. Pearl Devdas
Principal, JNRM

THE INSTITUTION

A Legacy of Learning — Since 1967

Jawaharlal Nehru Rajkeeya Mahavidyalaya (JNRM) was established in the year 1967 under the Andaman & Nicobar Administration. It has since grown to become the leading institution of higher learning in the Union Territory. Located on a verdant campus in Sri Vijaya Puram (Port Blair), the college serves a vibrant student community from across the archipelago — from the bustling South Andaman group to the remote reaches of the Nicobar Islands.

What began as a modest institution has transformed into a comprehensive multidisciplinary college. Today it offers eighteen Undergraduate and nine Postgraduate programmes across the Arts, Science, Commerce, Computer Science, Physical Education, and Tourism. Over the last six decades, JNRM has been both a catalyst and a custodian of social mobility in these islands. It has opened doors for the children of settlers, tribal communities, and defence personnel who call these islands their home.

Vision

To be the pre-eminent centre of higher learning in the Andaman & Nicobar Islands, fostering intellectual curiosity, island-centric knowledge, sustainable development and inclusive academic excellence, in alignment with the aspirations of the National Education Policy 2020.

Mission

1. To provide quality, accessible, and inclusive higher education to diverse learners across the Andaman & Nicobar Islands.
2. To cultivate research, innovation, and evidence-based inquiry with particular emphasis on island ecosystems and biodiversity, contemporary issues, and local knowledge systems.
3. To prepare students as socially responsible citizens with critical thinking, communication and professional competencies.
4. To foster a campus culture of dignity, discipline, creativity and democratic values.
5. To align academic programmes with the spirit and framework of the National Education Policy (NEP) 2020.

Government of India

Vice Chancellor:

Prof. Alok Kumar Rai, Director, IIM Calcutta

Effective for JNRM

Academic Year 2026-27

NSCBIHL is dedicated to promoting multi-disciplinary education with a focus on sustainable development and island-specific studies. This is in tune with the objectives of the National Education Policy (NEP) 2020. All seven Higher Education Institutions under the Andaman & Nicobar Administration are constituent colleges of NSCBIHL.

Admissions to all programmes in this institution for the Academic Year 2026-27 onwards shall be made under the aegis of the Netaji Subhash Chandra Bose Institute of Higher Learning (NSCBIHL), a Deemed-to-be University. Students admitted from the Academic Year 2026-27 onwards will be awarded their degrees by NSCBIHL.

DEPARTMENTS

LANGUAGES

हिन्दी

क्या आप जानते हैं कि हिंदी केवल एक भाषा नहीं – यह भारत की आत्मा की अभिव्यक्ति है? अंडमान और निकोबार द्वीपसमूह में, जहाँ देश के कोने-कोने से आए लोग एक साथ रहते हैं, हिंदी एक सेतु की भूमिका निभाती है – विविधता को एकता में पिरोती है।

जवाहरलाल नेहरू राजकीय महाविद्यालय का हिंदी विभाग महाविद्यालय के सबसे पुराने और सबसे बड़े विभागों में से एक है। स्नातक पाठ्यक्रम की स्थापना महाविद्यालय के प्रारंभिक वर्षों से ही है, जबकि स्नातकोत्तर अध्ययन सन् 1980 से प्रारंभ हुआ।

आज के युग में हिंदी केवल साहित्य की भाषा नहीं रही – यह सिनेमा, पत्रकारिता, डिजिटल मीडिया, प्रशासन और राष्ट्रीय विमर्श की भाषा है। विभाग का सेमेस्टर-आधारित पाठ्यक्रम हिंदी साहित्य के इतिहास, काव्य और गद्य परंपराओं, सृजनात्मक लेखन, अनुवाद, भाषा शिक्षण, पत्रकारिता और रंगमंच को समाहित करता है – जो छात्रों को गहरी जड़ें और विस्तृत क्षितिज दोनों प्रदान करता है।

विभाग का शैक्षणिक रिकॉर्ड अत्यंत गौरवशाली है – स्नातकोत्तर स्तर पर अनेक स्वर्ण पदक विजेता, लगातार 100% परीक्षा परिणाम और 90% से अधिक छात्रों द्वारा प्रथम श्रेणी की उपलब्धि। विभाग के तीन एसोसिएट प्रोफेसर, तीन असिस्टेंट प्रोफेसर, एक संविदा शिक्षक और तेरह रिसोर्स पर्सन का विशाल और अनुभवी दल राष्ट्रीय एवं अंतर्राष्ट्रीय स्तर पर हिंदी के प्रचार-प्रसार में योगदान देता रहा है।

विभाग में नियमित रूप से साहित्यिक संगोष्ठियाँ, कवि-गोष्ठियाँ, लेखकों से भेंट, पुस्तक प्रदर्शनियाँ और प्रतियोगिताएँ आयोजित की जाती हैं – जो छात्रों की भाषायी और सृजनात्मक क्षमताओं को निखारती हैं। इस विभाग के स्नातक शिक्षा, पुलिस, रक्षा, बैंकिंग, मीडिया, प्रशासन और राजनीति जैसे क्षेत्रों में अपनी विशिष्ट पहचान बना चुके हैं – और उनमें से अनेक अपने-अपने क्षेत्रों में उच्च पदों पर आसीन हैं।

BENGALI

Bengali is one of the world's great literary languages. It is the language of Rabindranath Tagore, the first Asian Nobel Laureate; of Bankimchandra Chattopadhyay, who gave India her national song; of Ishwar Chandra Vidyasagar, the great social reformer and architect of modern Bengali prose; and of Mahasweta Devi, whose words held up a mirror to the suffering of the marginalised. Recently, Bengali was accorded the status of a Classical Language. In the Andaman & Nicobar Islands, Bengali is not just a language of literature, but is the mother tongue of a large and vibrant community that has shaped the identity, culture, and spirit of these islands across generations.

Established in 1967, the Department of Bengali is one of the oldest and culturally active departments in JNRM. Postgraduate programme was added in 2014. This reflects the growing academic depth and student demand for advanced study of the language and literature in the region. The Department fosters a vibrant cultural and literary tradition. It encourages students and faculty to engage meaningfully with the history and heritage of the region.

The Department is served by one Associate Professor, one Assistant Professor and eight Resource Persons who bring scholarly depth and personal warmth to the teaching of this beautiful language. Graduates have built careers in teaching, media, translation, publishing and cultural organisations. They carry the richness of Bengali language and thought into every field they enter.

TAMIL

Tamil is one of the world's oldest living classical languages, with a rich literary tradition spanning over two thousand years. In the Andaman & Nicobar Islands, it is also an important part of the identity and everyday life of the Tamil-speaking community.

Established in 2014, the Department of Tamil at JNRM offers a B.A. programme that introduces students to Tamil literature from the Sangam period to modern times. The course also includes linguistics, cultural studies, and creative writing, helping students build both knowledge and practical skills.

The department regularly organises conferences, literary activities, and cultural programmes that help students actively engage with the Tamil language and community. It also works with other language departments to promote understanding of India's diverse cultures and languages.

With supportive faculty and resource persons, students receive personal guidance throughout their studies. The department also provides opportunities to interact with scholars from different parts of India through academic events.

After completing the course, students can go on to higher studies such as M.A. and research, or choose careers in teaching, journalism, translation, media, and cultural fields.

The Department of Tamil at JNRM offers a strong foundation for students who are interested in language, literature, and culture, while preparing them for future academic and career opportunities.

ENGLISH

Language is power. The ability to communicate clearly, think critically, and express ideas confidently is essential in every field. The Department of English helps students develop these skills for both academic success and real-world impact.

The Department offers B.A in English and M.A in English with an intake strength of 100 and 28 students respectively. Established in 1967 at the undergraduate level and expanded to postgraduate studies in 1971, the department is one of the oldest and most vibrant departments in JNRM.

The department comprises of two Associate Professors, three Assistant Professors and seven Resource Persons, a team known for expertise in postcolonial literature, linguistics & Creative Writing.

What does the student learn?

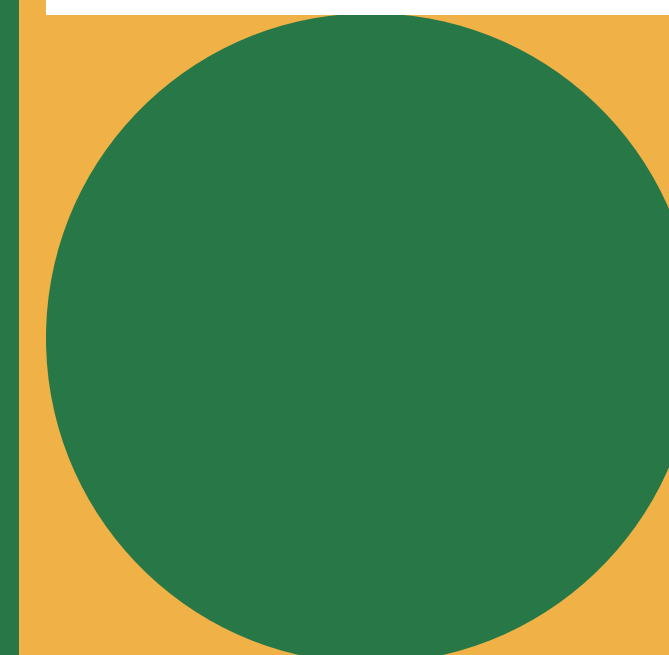

Literature across periods and cultures, Language and Linguistics, Creative Writing and Expression, Critical Thinking and Analysis, Effective Communication skills. Beyond the classroom the department celebrates its annual literary club festival, "Expressions" which is one of the most eagerly awaited events in the college calendar, a spectacular celebration of literature, performance & students' talent.

Why Our Department?

Experienced and dedicated faculty, engaging and inclusive learning environment, focus on skill development and confidence building, motivating, inspiring, and creating an environment at ease.

Our Vision

To empower students with language skills, critical thinking, and creativity to succeed in a dynamic and global world and also to groom them to be ready to meet the challenges in life with wit and wisdom.

SOCIAL SCIENCES

ECONOMICS

Economics is a broad and dynamic discipline. It equips students with the tools to understand how societies allocate resources, respond to change, and build or lose prosperity. Have you ever wondered why some nations prosper while others struggle? Why prices rise, jobs are created, or governments make the decisions they do? Economics helps you find answers to these questions, and many more. It teaches you to think clearly, and make informed decisions. These skills are valuable in every walk of life.

For students in the Andaman & Nicobar Islands, this discipline carries an important significance: questions of island development, maritime economy, sustainable tourism, fisheries and the economic integration of remote communities. These are the realities of this Union Territory.

Established in 1967, the Department offers undergraduate programme with emphasis on development economics, island economics and public policy. The department has two Associate Professors, one Assistant Professor, and three Resource Persons. They guide students with both academic depth and personal attention. Graduates have pursued successful careers in banking, management, teaching, research or have gone on for M.A. and Ph.D. programmes.

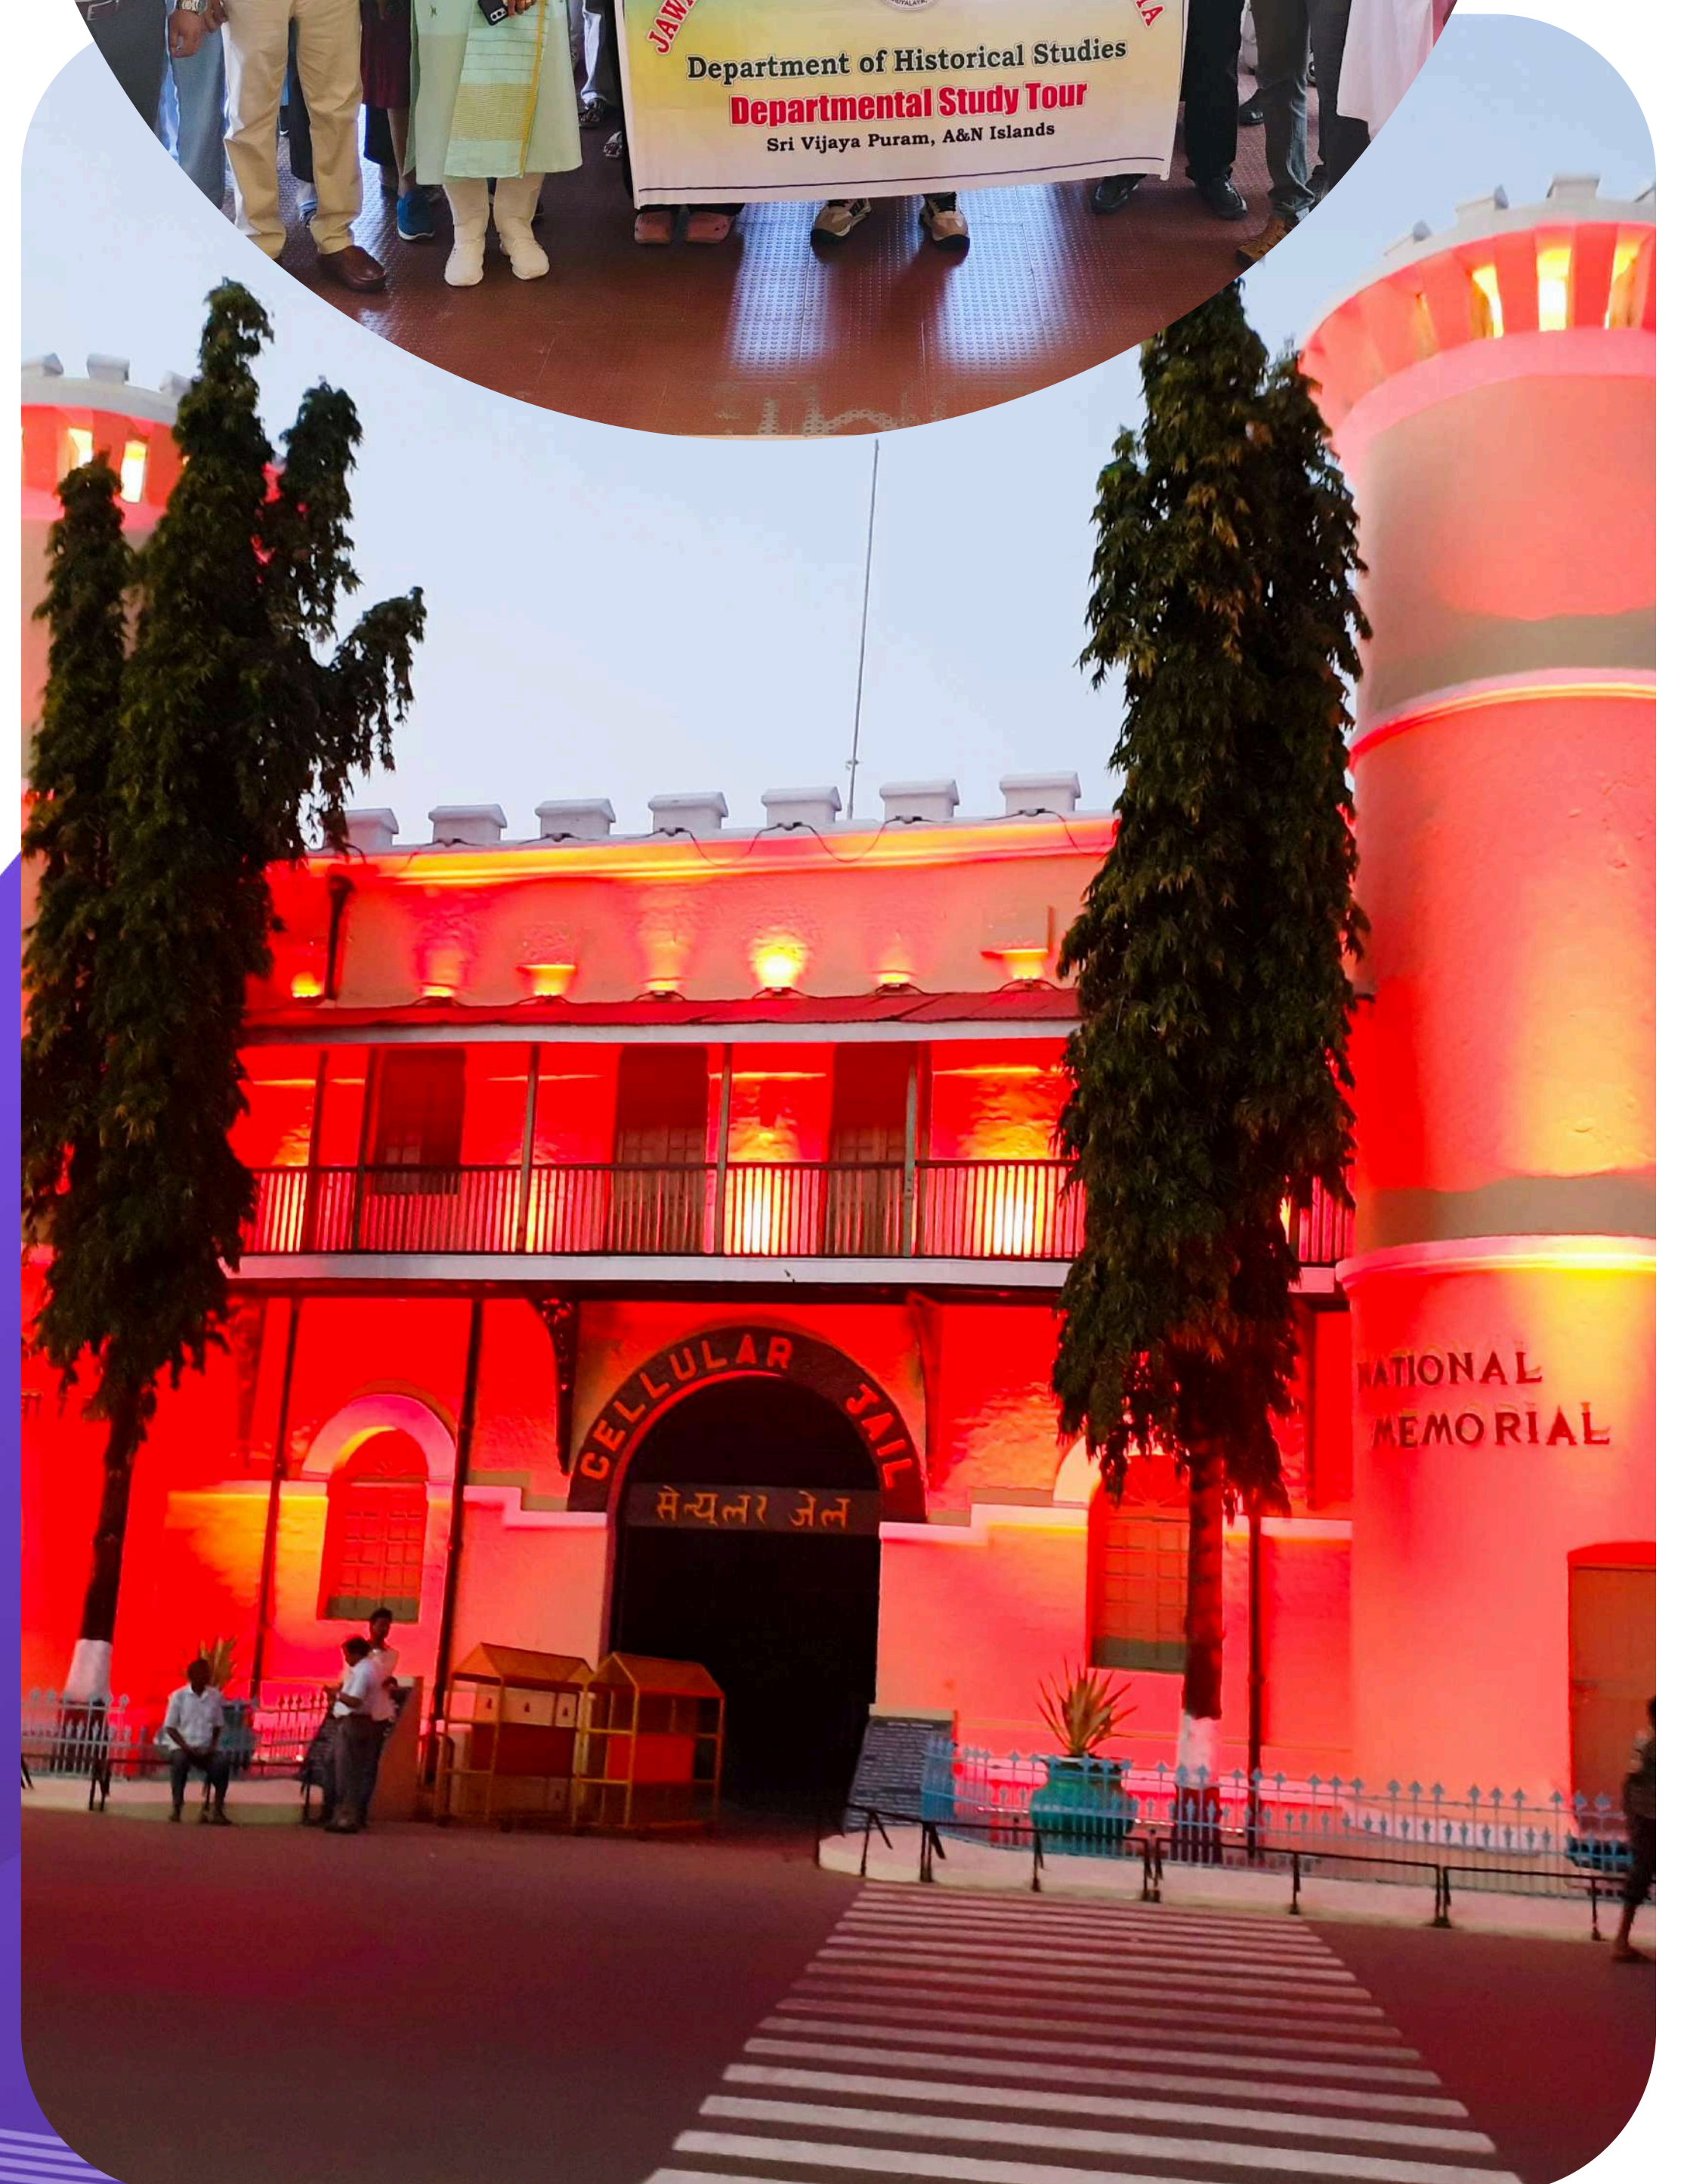

HISTORICAL STUDIES

"The man who learns nothing from the Past will be punished by the Future."

Nowhere in India is this truer than in the Andaman & Nicobar Islands. These islands hold within them one of the most layered and emotionally charged historical narratives in the subcontinent. For example, the ancient maritime civilisations of the Bay of Bengal, the infamous Cellular Jail where India's freedom fighters were imprisoned from the mainland, the Japanese occupation of these islands during the World War II, the post-partition settlers who built new lives in these islands, and the story of indigenous communities whose roots in these islands dates back to thousands of years. To study History in the Andaman & Nicobar Islands is something like studying a place where the past is still alive – in its buildings, in its documents, in its people, and in its soil.

Established in 1971, the Department of Historical Studies is one of the oldest departments in JNRM. The department offers B.A. programme which covers ancient, medieval, and modern Indian history, with a special focus on the colonial and post-colonial history of this Union Territory.

The Department brings history to life beyond the classroom. Students of the department recently completed a fifteen-day internship at the A & N Archives. The department is served by an enthusiastic and qualified team of one Assistant Professor and six Resource Persons. Graduates have pursued successful careers in teaching, research or have gone on for M.A. and Ph.D. programmes.

POLITICAL SCIENCE

The Department of Political Science is the oldest department of JNRM, established in 1967 as one of the pioneering departments of the institution. Over the decades, it has built a distinguished legacy marked by academic excellence. Initially introduced as an undergraduate department, it expanded its academic horizon with the introduction of postgraduate studies in 1976.

Since its inception, the department has benefited from dynamic leadership and the guidance of experienced and highly regarded scholars. It is committed to the holistic development of students, emphasizing not only academic learning but also fostering analytical thinking and critical engagement with contemporary political realities.

The department offers a comprehensive curriculum covering Political Theory, Indian and Western Political Thought, International Relations, Public Administration, Foreign Affairs and Public Policy. Beyond classroom teaching, the department actively organizes national-level seminars, invited lectures, and academic events.

The department boasts a strong faculty base comprising of two Associate Professors, one Assistant Professor, two Contract Faculty members, and seven Resource Persons. Most faculty members possess extensive teaching and research experience and have been involved in projects funded by prestigious bodies such as the UGC, ICHR and ICSSR, enriching the department's academic environment.

The alumni of the department have established themselves in diverse and prestigious fields, including civil administration, armed forces, law, academia, media, and other professions. Their achievements continue to bring pride and recognition to the department, making it one of the most prominent and successful departments in JNRM and across the Andaman and Nicobar Islands.

SCIENCES

BOTANY

Imagine studying plants in one of the most biodiverse archipelagos on earth. The Andaman & Nicobar Islands are home to thousands of plant species such as ancient rainforests, beautiful mangroves, seagrass meadows, coral-associated algae and medicinal plants used by indigenous communities for generations. For a student of Botany, this is not simply a classroom but a living laboratory.

Established at the undergraduate level in 1971 and expanded to postgraduate studies in 1989, the Department of Botany at JNRM is one of the research-active departments in the college. It offers both B.Sc. and M.Sc. programmes. Faculty research spans mycology, biodiversity, mangrove ecology and ethnobotany. Students regularly engage with leading national institutions like the Botanical Survey of India, the Zoological Survey of India, NIOT, CIARI-CARI, AYUSH and Pondicherry University.

Beyond academics, the department pulses with creative energy. The department's festival, *Floristics*, brings together students from across disciplines for events in botany, ecology and creativity. Its magazine, *Daffodils*, gives students a platform to write, reflect and express. Postgraduate students have visited various premier institutions like the IISc, Bangalore, for educational exposure.

The department is served by three Assistant Professors and seven Resource Persons. After graduating, students can pursue Ph.D programmes in other universities, careers in forest services, agriculture and teaching right here in the islands and across India.

ZOOLOGY

Have you ever wondered how a sea turtle finds its way back to the exact beach where it was born? Or how a coral reef, which is home to thousands of species, can die within years? Do you know Dugongs still graze in Andaman waters that ancient sailors mistook for mermaids? The Andaman & Nicobar Islands are a living zoology textbook. If the living world fascinates you, Zoology is where you belong.

Zoology is the scientific study of animals. We study about their structure, behaviour, genetics, evolution, and relationship with the environment. Established in 1971, the Department of Zoology offers a B.Sc. programme with a strong focus on hands-on learning. The department's Zoology Museum houses a unique collection of island specimens.

The department runs the *Nature Club*. It is a student-led initiative that takes conservation beyond the classroom. The department also honours its own legacy through the annual Dr. T.C. Khatri Memorial Lecture, named after former faculty member who dedicated his life to the study and conservation of butterflies in the Andaman & Nicobar Islands. This lecture series brings distinguished scientists to the campus each year. This helps in keeping students connected to the living world of zoological research.

The department is guided by two Assistant Professors and three Resource Persons. They ensure both academic depth and personal attention for every student. After graduating, you can pursue M.Sc. and Ph.D. programmes, appear for forest and wildlife services, build careers in fisheries, aquaculture, environmental research, or teaching in these islands and across India.

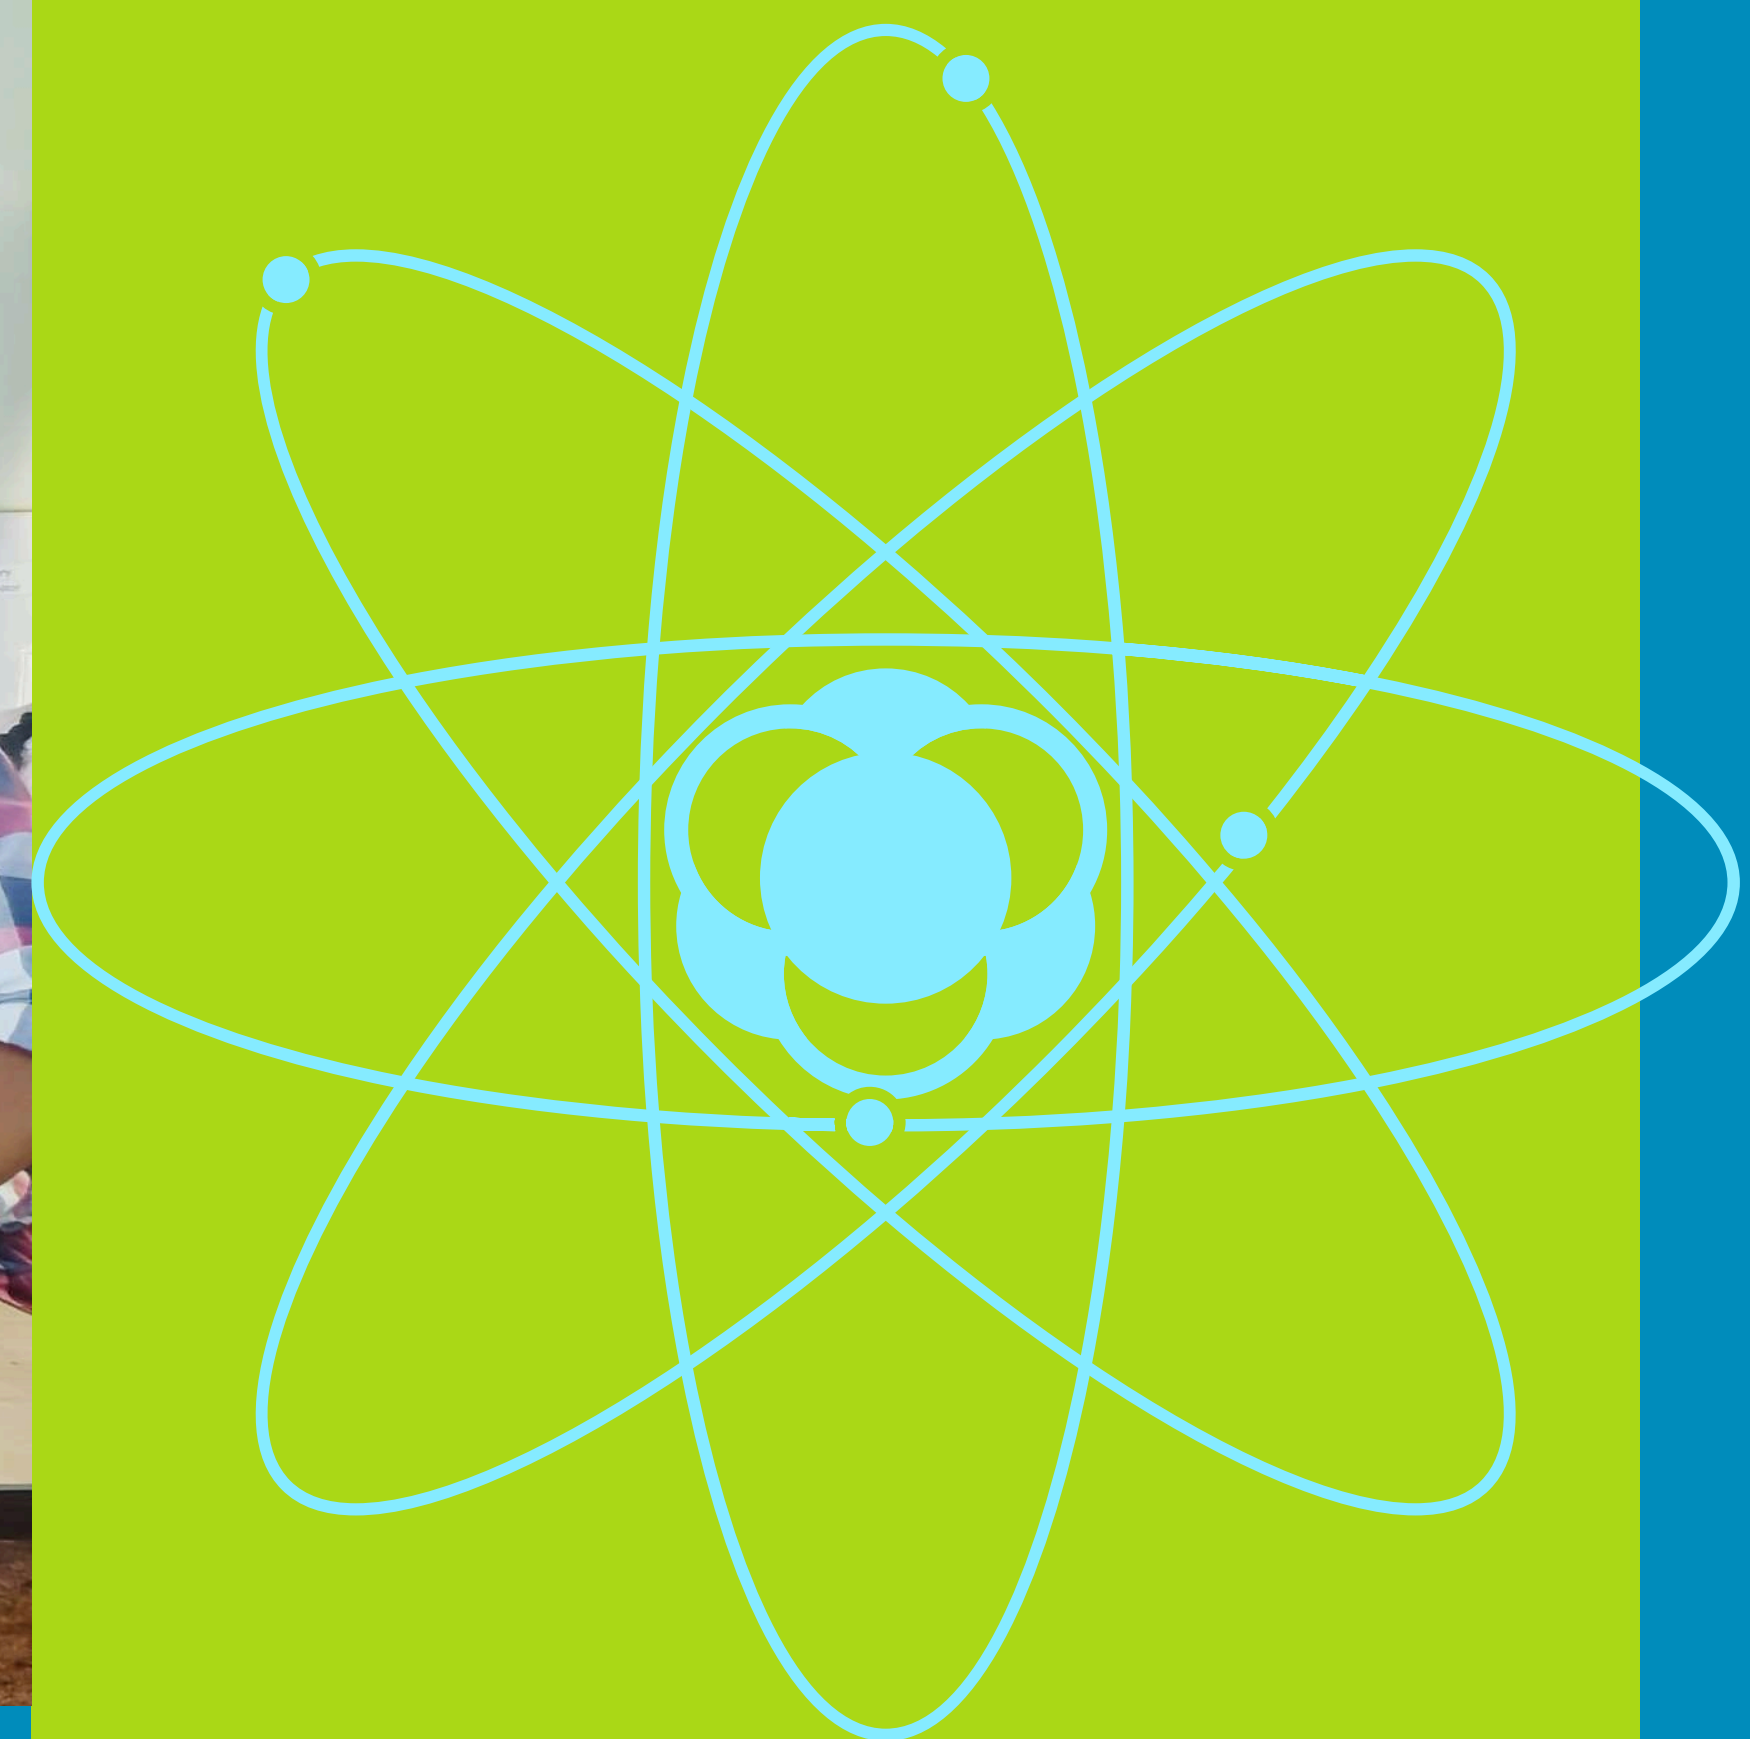

CHEMISTRY

What makes medicine work? Why does iron rust, but gold does not? How do scientists develop new materials and create cleaner fuels? The answer to all of these questions lies in Chemistry. It is the central science that sits at the heart of biology, physics, medicine, agriculture, and environmental science. Whatever career you choose, an understanding of Chemistry will give you an edge.

In the Andaman & Nicobar Islands, the analysis of marine natural products, water quality testing, food safety, and environmental monitoring are areas where trained chemists are needed. Established at the undergraduate level in 1971 and expanded to postgraduate studies in 1988, the Department of Chemistry offers B.Sc. and M.Sc. programmes. Its curriculum covers organic, inorganic and physical chemistry. The department is equipped with well-maintained laboratories. Students from the department have consistently achieved excellent ranks in national-level competitive examinations such as CSIR NET-JRF. They have also secured gold medals in Pondicherry University examinations.

The department is served by two Assistant Professors and six Resource Persons whose teaching ensures both academic rigour and close individual attention. After graduating, you can pursue Ph.D. programmes, build careers in pharmaceuticals, forensic science, environmental testing, food technology, teaching and many more. Chemistry truly opens doors in every direction.

PHYSICS

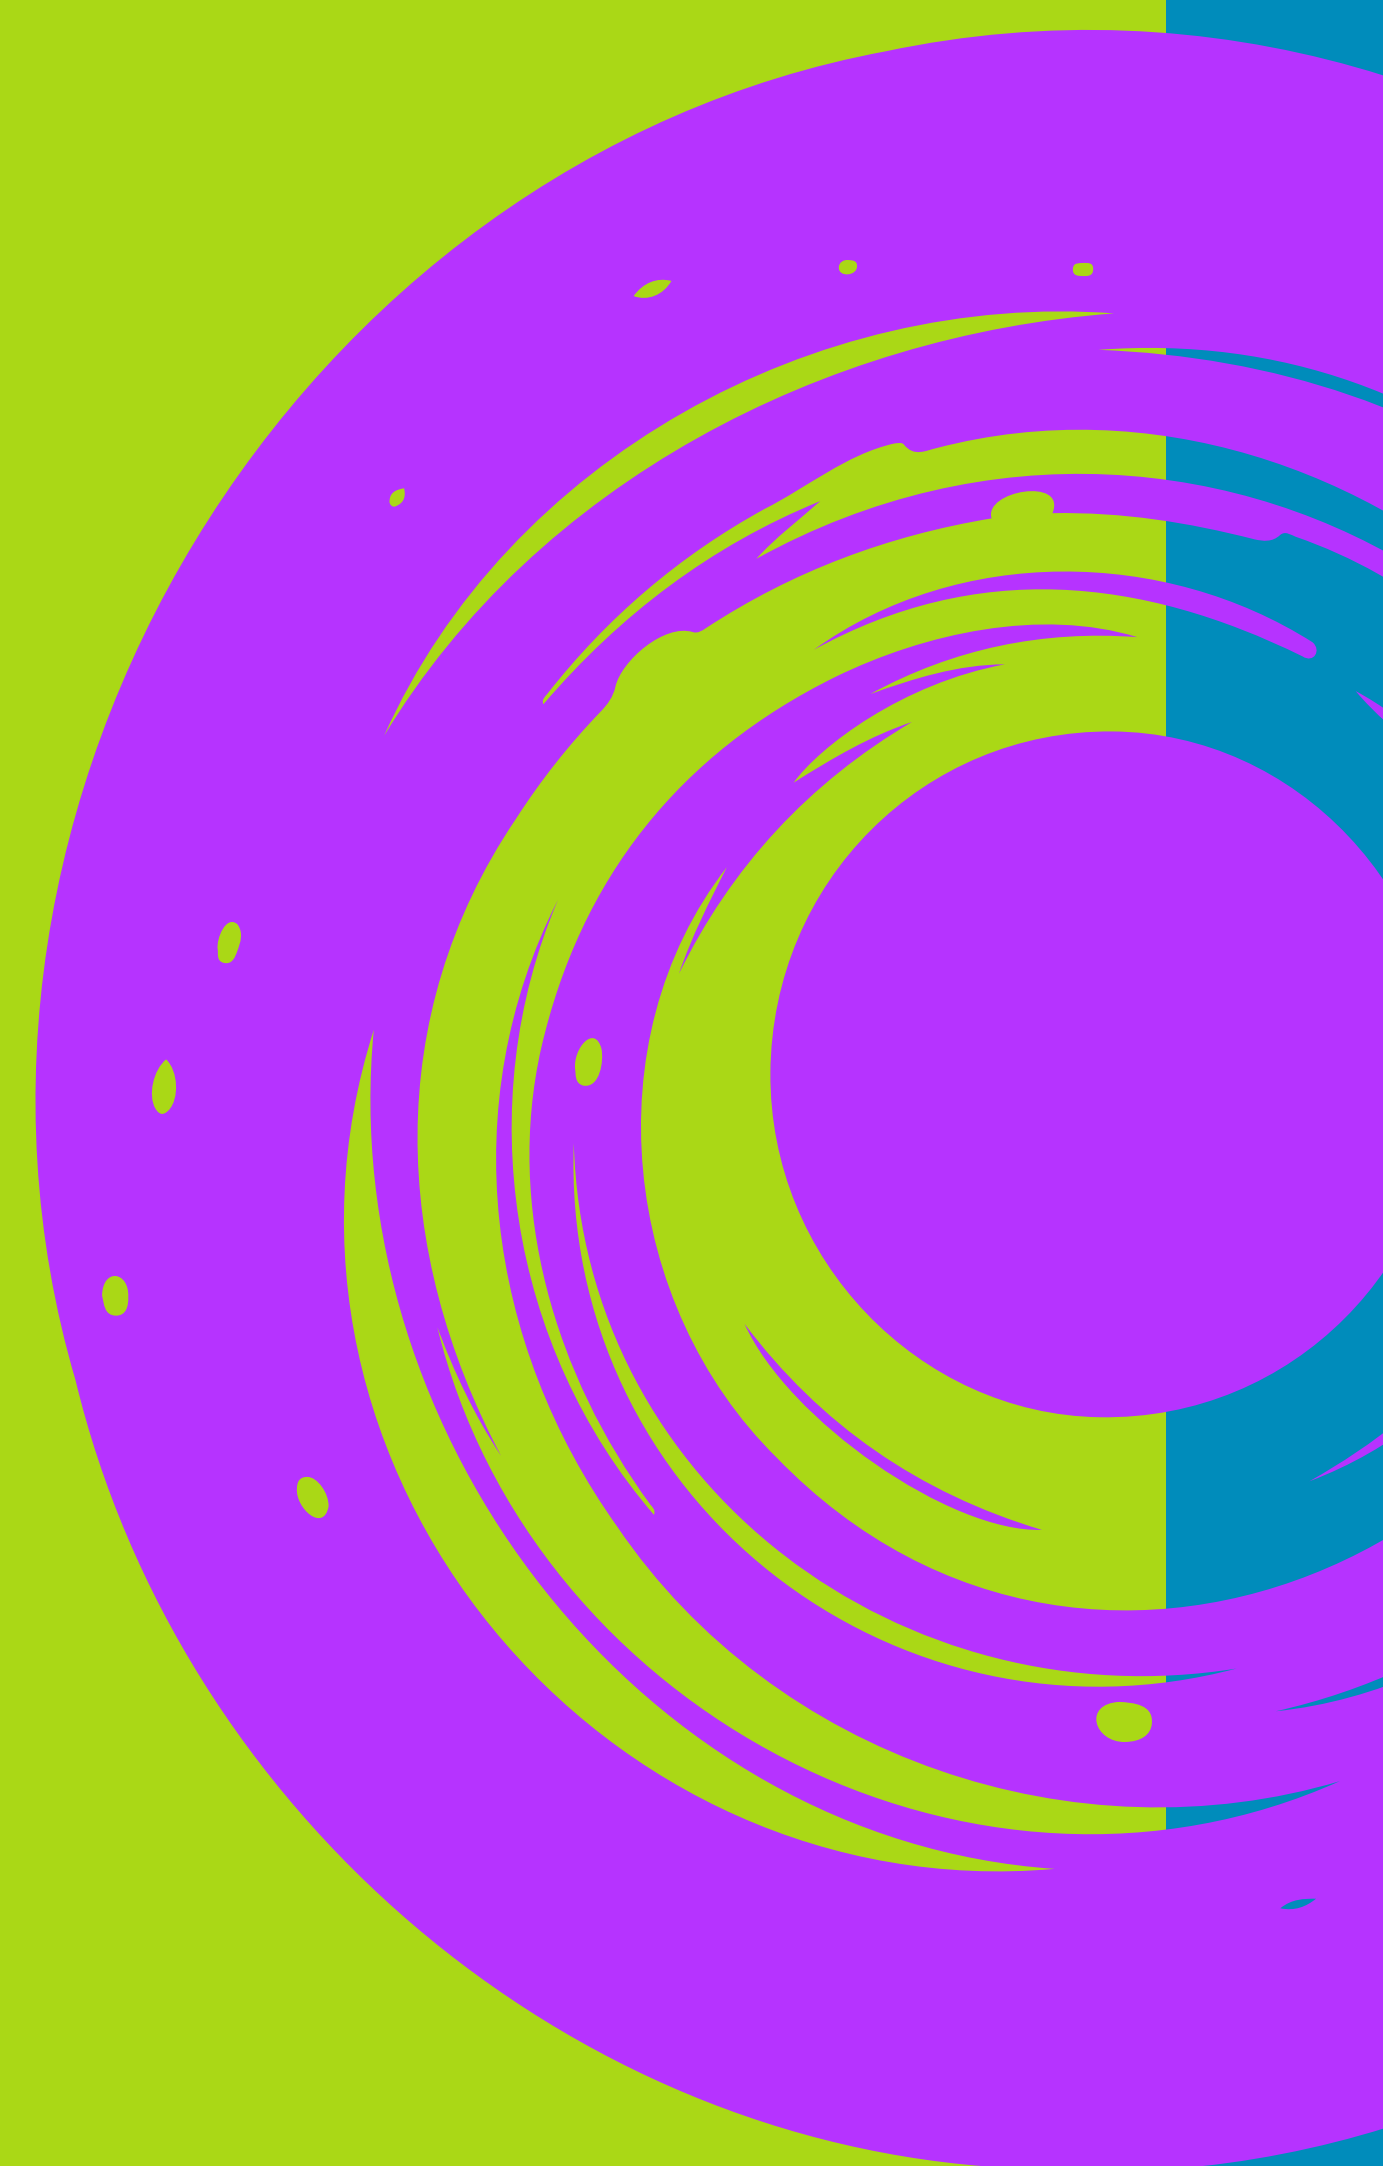

Why does light bend when it passes through water? Which force holds the universe together? And what is tearing it apart? How does your smartphone know exactly where you are on a remote island in the middle of the Bay of Bengal? Physics is the science that asks the deepest questions about the nature. And then answers them perfectly with the help of mathematics and experiment.

Physics is also the foundation of almost every technology that shapes modern life. From satellites and submarines to medical imaging and solar energy. In our Union Territory which depends on satellite communication, naval technology and renewable and conventional energy for its connectivity and survival, Physics is not just a subject. It is a lifeline.

Established in 1971, the Department of Physics offers a B.Sc. programme. Its curriculum covers Mechanics, Optics, Electricity, Magnetism, and Modern Physics. The department's well-equipped laboratories ensure that every concept you learn, you test, measure, and verify with your own hands

The department is served by one Associate Professor and four Resource Persons. They bring subject expertise and personal commitment to every student's learning journey.

After graduating, you can pursue M.Sc., B.Ed. and Ph.D. programmes, appear for competitive examinations or build careers in research, teaching, defence, space technology, and information technology. The universe, quite literally, is your limit.

MATHEMATICS

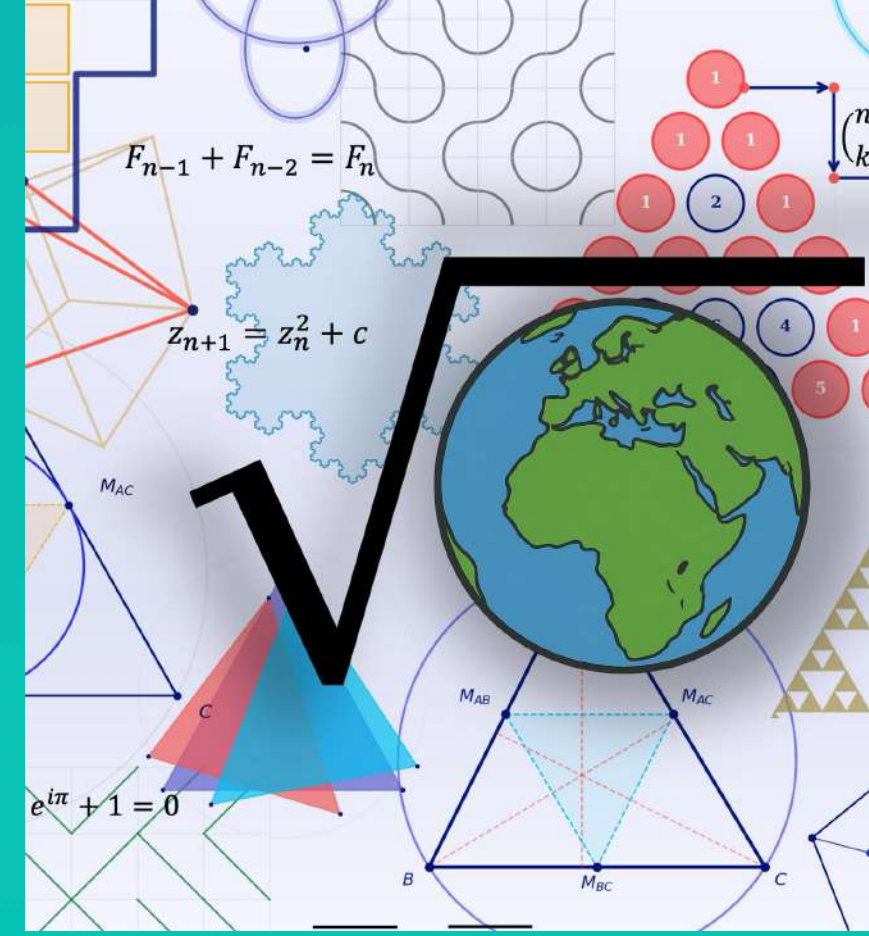

Mathematics brings order and balance to the universe!

Numbers shape the world. The Department of Mathematics at JNRM invites you to master that language. Since 1971, the department has offered a robust B.Sc. programme. It has a carefully designed curriculum that covers Algebra, Analysis, Calculus, and Statistics. Whether your ambition lies in research, data analytics, academia, or competitive examinations, this department equips you with analytical thinking and problem-solving skills that open doors across disciplines.

A vibrant academic culture thrives here beyond the classroom. The JNRM Mathematical Society was inaugurated in 2025. It fosters intellectual engagement through guest lectures, student performances, and interactive events. Thus, it helps in bringing mathematics alive in creative and inspiring ways.

The department is supported by a dedicated team of one Associate Professor, two Assistant Professors, and 4 Resource Persons. The faculty members ensure personalised academic mentoring for every student. After graduating, you can pursue M.Sc., B.Ed. and Ph.D. programmes, appear for competitive examinations or build careers in research and teaching.

If you think in numbers, this is your home!

GEOGRAPHY

Look at a map of the Andaman & Nicobar Islands! Eight hundred thirty six islands scattered across the Bay of Bengal with coral reefs, tropical rainforests, mangrove coastlines, volcanic peaks, and some of the most pristine ecosystems on earth. For a student of Geography, this archipelago is not just home but is a classroom without walls.

Geography is a unique discipline that bridges the natural and social sciences. It trains you to understand how the physical world is shaped. From mapping and spatial analysis to climate change, ocean studies, environmental management, and GIS technology, Geography equips you with skills that are relevant to virtually every sector of modern life.

Established at the undergraduate level in 1971 and expanded to postgraduate studies in 1987, the P.G. Department of Geography is one of the largest departments in JNRM. It offers both B.Sc. and M.Sc. programmes. The department's annual magazine, *Vasundhara*, gives students a creative and intellectual platform to engage with geographic thought, field observations, and environmental concerns.

The department is served by six Associate Professors, one Assistant Professor, and eight Resource Persons who bring subject expertise and personal commitment to every student's learning journey.

Graduates have pursued careers in teaching, research, urban and regional planning, the Indian Armed Forces, Geographic Information Systems etc. The Andaman & Nicobar Islands, with their unique developmental and conservation challenges, offer geography graduates opportunities that are truly one of its kind.

COMPUTER SCIENCE

Computer Science powers the apps that connect us, secures our digital world and enables safe navigation of ships and aircraft to these islands. It is both an art and a science that addresses critical global challenges. If you are curious about technology and aspire to shape the digital future, the Department of Computer Science at JNRM is where your journey begins.

The Department has a proud legacy in the Andaman & Nicobar Islands. The Bachelor of Computer Applications (BCA) programme, the first of its kind in these islands, was introduced in the academic year 1999–2000. Building on this strong foundation, the Department expanded to offer a Master of Science (M.Sc.) in Computer Science in the academic year 2004–2005.

The Department is committed to providing quality education in the field of Computer Science and its Applications. It aims to equip students with the knowledge, practical skills and problem-solving abilities required to meet the demands of a rapidly evolving global technology landscape. Our students have secured positions in leading organizations such as HCL Technologies, Wipro, IBM and TCS. Many others have built successful careers overseas and across various departments under the A & N Administration.

With a dedicated team of five highly qualified faculty members selected through the UPSC, along with nine experienced resource persons, the Department fosters a culture of academic excellence while ensuring that each student receives meaningful guidance and individual support.

HOME SCIENCE

What does it mean to live well? And to help others do the same? Home Science is the discipline that answers these questions with both science and compassion. It is a unique blend of five branches viz. Food Science and Nutrition, Human Development, Clothing and Textile Science, Family Resource Management and Extension Education. In the Andaman & Nicobar Islands, where questions of community health, women's empowerment, food security and sustainable livelihoods are deeply relevant, this discipline finds a particularly meaningful mission.

The Department of Home Science came into existence in 1974. It was initially offered as an elective. From 1988-89 onwards, B.Sc. Home Science was offered as a full-fledged degree programme. This reflects the growing recognition of this discipline's importance in the islands' social and economic fabric. What makes this department truly distinctive is the breadth of its community outreach. The department regularly partners with national bodies like NABARD, the National Commission for Women, Social Welfare Department, ICAR etc., bringing latest knowledge directly into the classroom.

The department is guided by well qualified and efficient teaching staff with well established lab facilities. After graduating, students can pursue careers as food analysts, laboratory technicians, interior decorators, fashion designers, school teachers, subject matter specialists, scientists, extension officers or can launch their own enterprises.

The islands, with its growing tourism, hospitality, and health sectors, offer exciting opportunities for Home Science graduates.

PHYSICAL EDUCATION AND SPORTS

Are you passionate about sports? Do you dream of becoming a coach, a fitness trainer, or a sports administrator? If yes, the Department of Physical Education and Sports at JNRM is the right place for you.

The Andaman & Nicobar Islands have a proud sporting tradition, and this department started its academic programmes from 2012. It started with a clear mission: to train the next generation of sports professionals from these islands. The four-year Bachelor of Physical Education and Sports (BPES) programme goes far beyond the playground. You will study sports science, psychology of performance, fitness training, health education, coaching methods and the organisation and management of sporting events. This will give you both the knowledge and the practical skills to build a rewarding career in sports.

Admission to the programme requires a physical fitness test and an evaluation of your sports achievements. So your dedication on the field counts just as much as your marks in the classroom. The department is guided by one Assistant Professor and nine Resource Persons. They ensure close personal attention for every student.

After completing BPES, you can pursue M.P.Ed. and Ph.D. programmes, qualify as a coach through the Sports Authority of India (SAI) and NSNIS, or build careers in schools, colleges, fitness centres, sports academies, and sports administration, in the islands and across India.

COMMERCE & MANAGEMENT

COMMERCE

Commerce education is a specialized branch of learning focused on business, trade, and finance, aimed at preparing students for careers in industry and management. Its nature is vocational, analytical, and practical, aiming to create value and maximize profit through the exchange of goods and services. The scope is vast, covering accounting, banking, marketing, entrepreneurship, and digital commerce.

The Department of Commerce is one of the pioneering departments of JNRM. The Department offers B.Com and M.Com, aiming at imparting in-depth knowledge and professional skills required for handling the "Finance Functions" of the various corporate enterprises. As there is a need for Accounting & Taxation professionals in all sectors of economy, the Department introduced M.Com. Programme from 2000-2001. This course is designed to cater to the manpower requirements of corporate sector having knowledge in the area of Accounting & Taxation, supplementing the manpower supplied by professional courses like Chartered Accountancy and Cost and Management Accountancy.

The Department imparts knowledge through lectures, interactive sessions, case analysis, group discussions on contemporary themes, internship training & project work. Besides, career guidance & counseling, institute-industry interaction programme, application of ICT, industrial/field visits, and educational tour are also arranged to give practical exposure to the students.

BBA TOURISM

Did you know that tourism is the single largest industry in the Andaman & Nicobar Islands? Every year, hundreds of thousands of visitors travel to these islands to experience the pristine beaches, coral reefs, historic sites, and rich tribal heritage. Behind great tourism experience in these islands is a team of skilled, professionally trained people. And that is exactly what this department trains you to become.

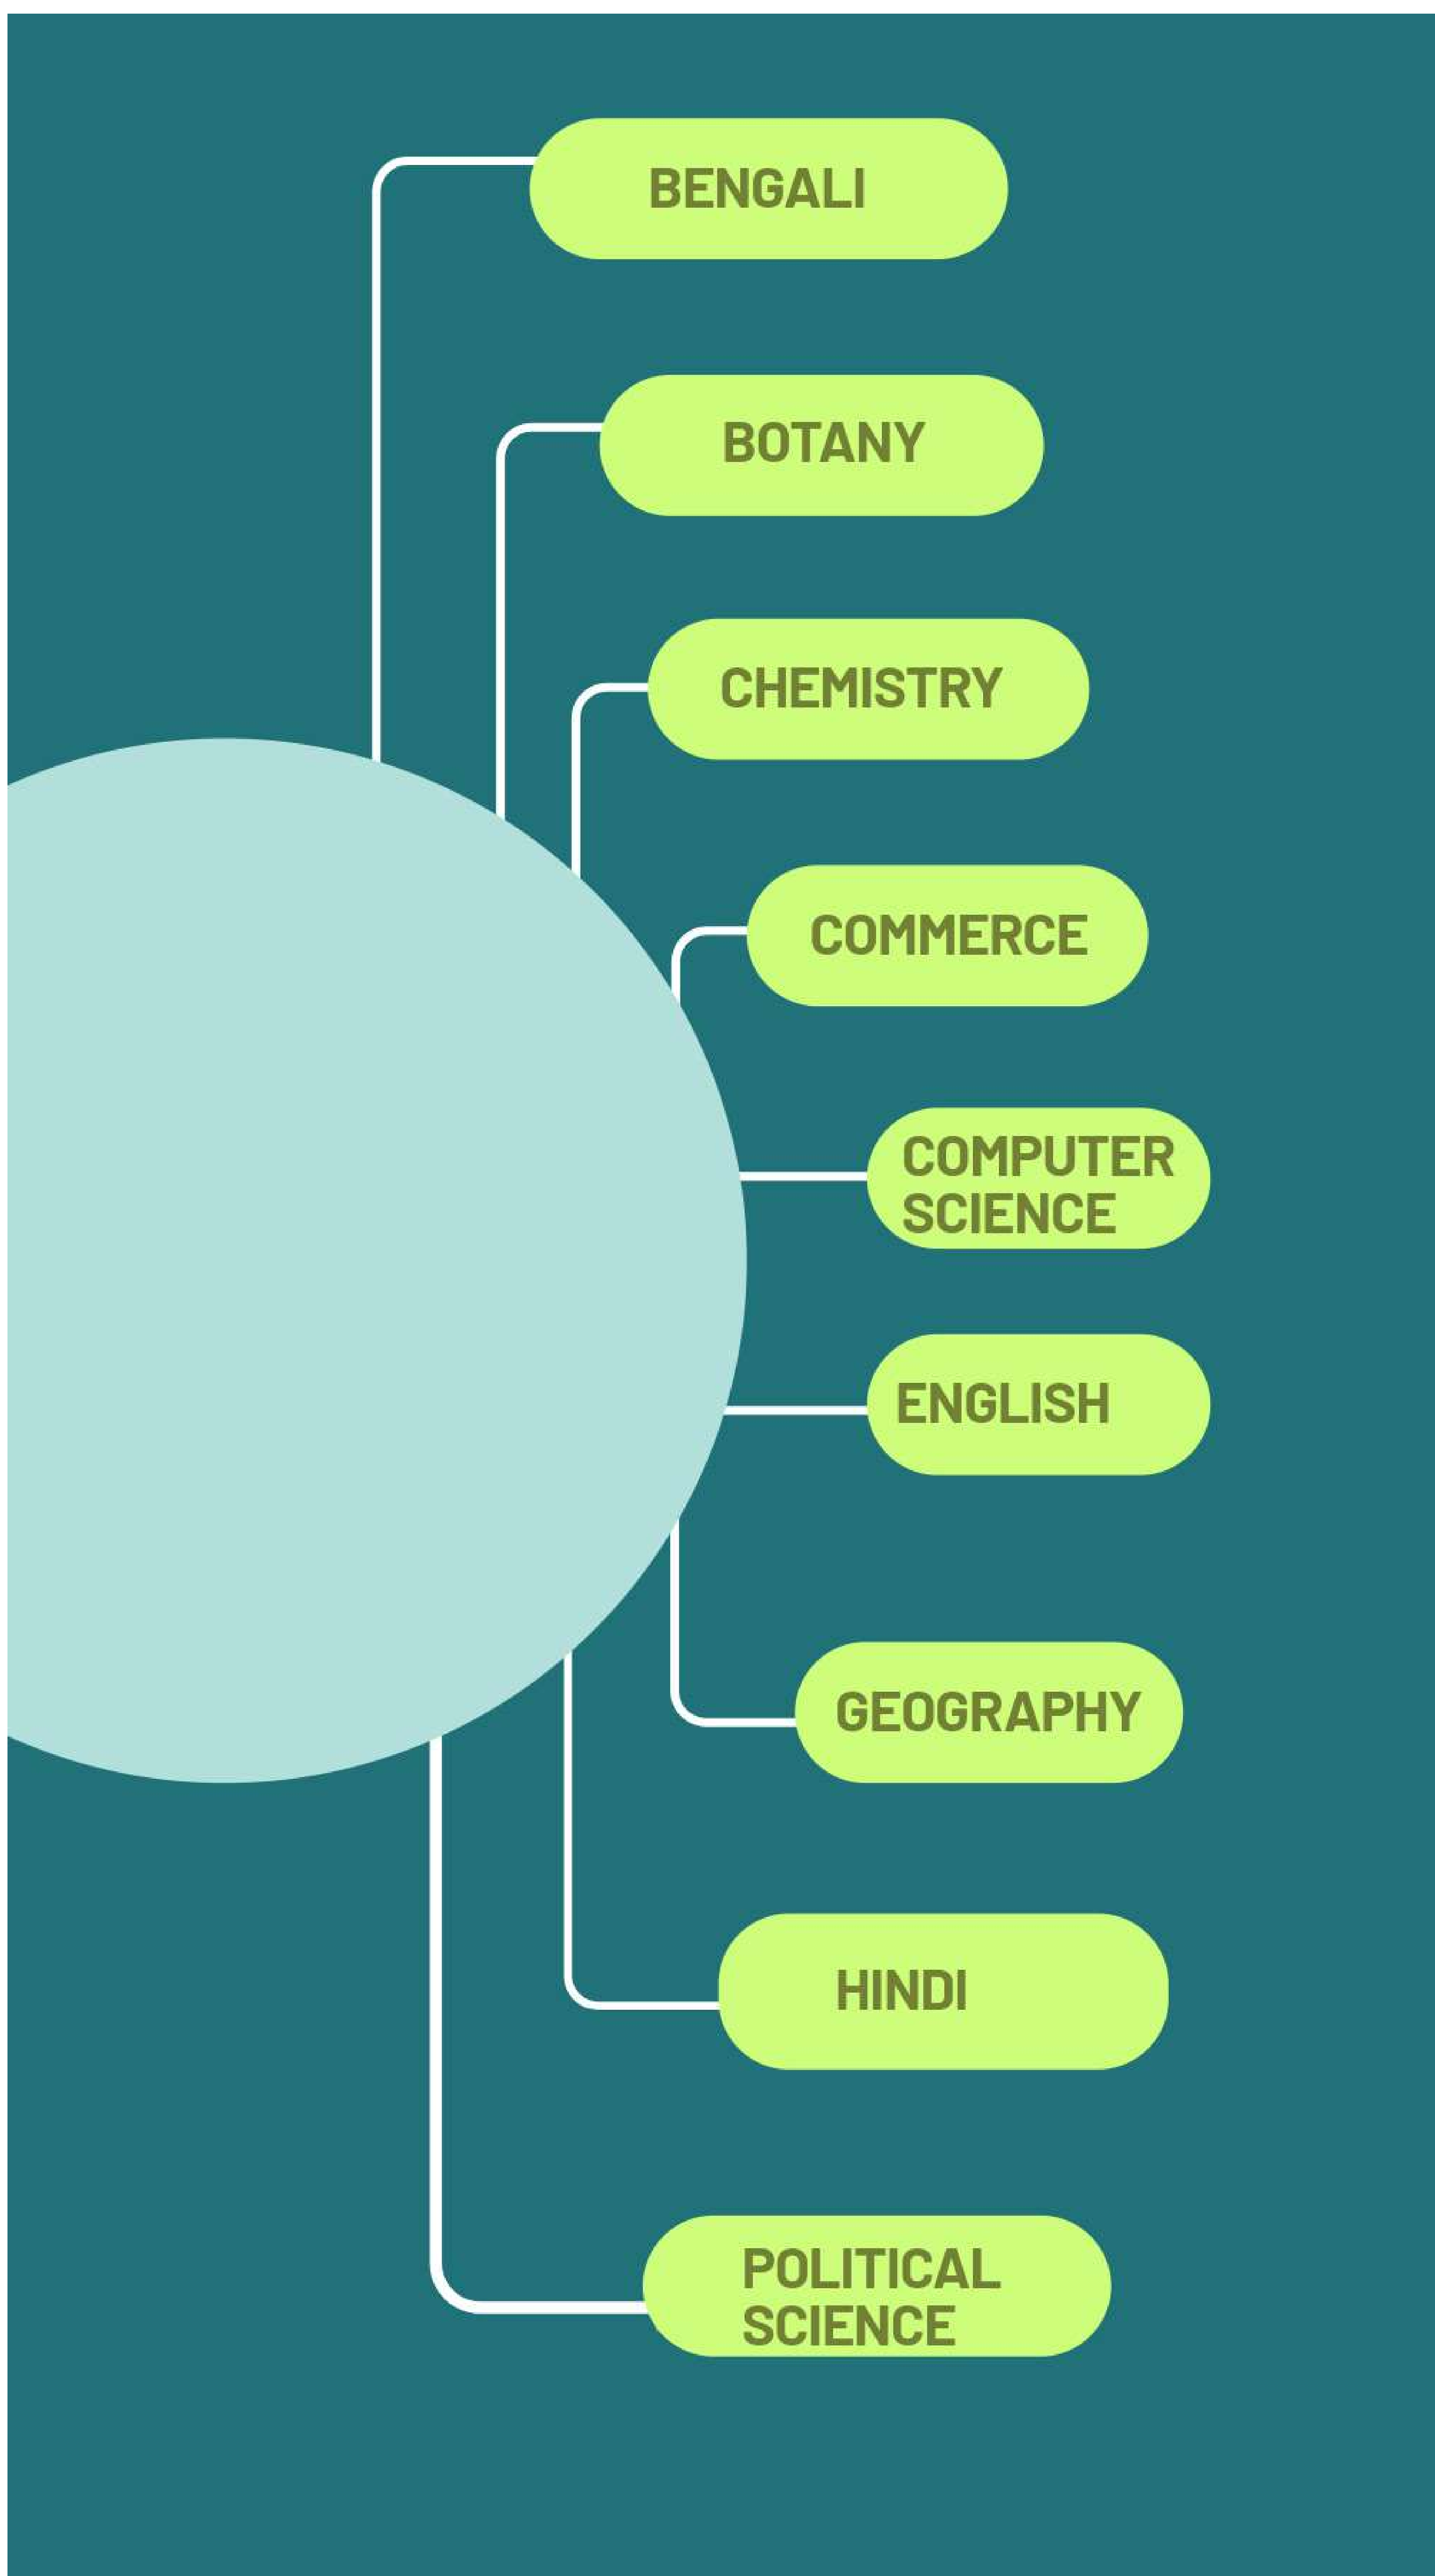

Established in 2000, the Department of BBA (Tourism) was introduced with a clear and practical purpose: to build tourism professionals from within the islands, for the islands. With an intake of 34 students per year, the four-year programme covers all aspects of the tourism and hospitality industry – from travel agencies and tour operations, tour guiding, airlines and hotel management to marketing, customer service and event planning.

What makes this programme special? It is its hands-on approach. As part of the curriculum, students undertake a two-month internship training programme in tourism industry, as well as educational study tours to mainland and different islands. This gives students real work experience before they graduate. The department is guided by two Assistant Prof and three Resource Persons who bring academic depth and industry insight to the classroom.

Graduates of this department have built successful careers with leading organisations in the travel and tourism sector. Several alumni have also launched their own tourism businesses across the Andaman Islands. Thus, they have turned their education into entrepreneurship in one of India's most exciting destinations.

POST GRADUATE DEPARTMENTS

COURSES OFFERED — 2026 – 27

JNRM offers comprehensive degree programmes under NSCBIHL across the humanities, sciences, commerce, physical education and tourism. All undergraduate programmes are of three/four-year duration and postgraduate programmes of one / two-year duration, conducted on a semester system.

UNDERGRADUATE PROGRAMMES (UG)

Sl.	Programme	Minimum Eligibility	Seats
01	B.A. Bengali	10+2 from any recognised board with min % marks specified by the University / State Govt.	80 (+10*)
02	B.A. English	10+2 from any recognised board with English as one subject	90 (+10*)
03	B.A. Hindi	10+2 from any recognised board. For B.A. Honours in Hindi student should have studied Hindi as a subject in Class XII.	90 (+10*)
04	B.A. Tamil	10+2 from recognised board with the ability to speak, read, write and comprehend Tamil language	30 (+4*)
05	B.A. Economics	10+2 from any recognised board with Economics / Mathematics as one of the subjects	90 (+10*)
06	B.A. History	10+2 from any recognised board equivalent stage of education	90 (+10*)
07	B.A. Political Science	10+2 from any recognised board with Political Science or related subject with a min of 45 % marks	90 (+10*)
08	B.Sc. Chemistry	10+2 with Chemistry (min. 50%); Physics & Mathematics mandatory at +2 level for those opting for Physics and Mathematics Minor OR Physics and Biology subjects mandatory at +2 level who are opting Physics and Zoology/Botany Minor.	50 (+6*)

SKILL INDIA दक्षता

SKILL INDIA TRAINING CENTRE, JNRM

JNRM's Skill India Training Centre is your gateway to real-world skills.

What is Dakshata?

Dakshata is JNRM's skill development programme under the national Skill India Mission. It offers short, practical courses that give you a government-recognized certificate on completion.

Dakshata 1.0 — What We Achieved

In 2025–26, we successfully ran 8 skill development courses. Every student who completed the training received an official certificate.

Dakshata 2.0 — What's Coming

For 2026–27, we are offering 10 courses with a target of enrolling 1,510 students. Courses are carefully selected under the guidance of the State Nodal Officer and the A & N Administration.

10 PROPOSED COURSES FOR 2026-27

- 1 Fundamentals of Yoga
- 2 Essentials in Self Defence
- 3 Fundamentals of Baking
- 4 Fundamentals of Physical Fitness
- 5 Basics of Hospitality Etiquettes
- 6 Laghu Udyami (Fast Food Stall)
- 7 Fundamentals of Sports Injury Prevention & First Aid
- 8 Introduction to AI
- 9 Fundamentals of Strength & Conditioning
- 10 Foundation Course in Wellness Nutrition

NEP 2020 & ACADEMIC FRAMEWORK

National Education Policy at JNRM

The National Education Policy (NEP) 2020, adopted by the Government of India, envisions a holistic, flexible, multidisciplinary, and student-centric model of higher education. As a constituent college of NSCBIHL, JNRM is actively implementing the principles of NEP 2020 in its curriculum design, pedagogy, and student support systems.

Key NEP 2020 Features at JNRM

Multiple Entry and Exit points with appropriate certification (Certificate, Diploma, Degree) at the end of each stage.

Choice-Based Credit System enabling students to choose courses across disciplines.

Integration of vocational education, internships and community engagement.

Emphasis on research, innovation and entrepreneurship even at the undergraduate level.

Island-centric and interdisciplinary curricula drawing on the unique ecology and culture of the Andaman & Nicobar Islands.

Academic Bank of Credits (ABC) for greater flexibility and mobility.

ADMISSION PROCEDURE — 2026–27

Admission to all Undergraduate and Postgraduate programmes at JNRM for the Academic Year 2026–27 is conducted entirely online through a common admission portal (<https://collegeadmission.andamannicobar.gov.in/>) under the aegis of NSCBIHL. Candidates may apply from anywhere in the Andaman & Nicobar Islands without visiting the college in person. The process is transparent, merit-based, and governed strictly by the reservation norms of the Government of India and the A&N Administration.

Step-by-Step Admission Process

Step 1 — Online Registration

Visit the official common admission portal (<https://collegeadmission.andamannicobar.gov.in/>) or the NSCBIHL portal (nscbihl.andamannicobar.gov.in) and register during the notified admission window. Fill the online application form carefully and note your registration number.

Step 2 — Document Upload

Upload scanned copies of all required documents — mark sheets, certificates, category certificate (if applicable), and a recent passport-size photograph. Ensure all documents are legible and authentic.

Step 3 — Provisional Merit List

A provisional merit list shall be prepared based on qualifying examination marks and displayed on the college website and campus notice board. Check your status regularly.

Step 4 — Counselling

Counselling dates shall be announced through local newspapers, All India Radio, Doordarshan and the official website. Attend counselling with all original documents for verification.

Step 5 — Seat Allotment & Admission Confirmation

Seats shall be allotted at counselling based on merit and category. Admitted candidates must complete fee payment and document verification within the stipulated period to confirm admission. Failure to do so within the deadline shall result in forfeiture of the allotted seat.

Documents Required for Admission

- 10th Standard (SSLC) Pass Certificate
- 12th Standard (HSC) Mark Sheet and Pass Certificate (for UG admissions)
- All Semester / Year Mark Sheets of Degree examination (for PG admissions)
- Transfer Certificate from last institution attended.
- Caste / Community Certificate (SC / ST / OBC / EWS) from competent authority.
- Disability Certificate (for Divyang candidates) from competent authority.
- Ex-Serviceman / Central Government Employee Certificate with domicile proof (if applicable)
- Migration Certificate (if from a board other than CBSE or Tamil Nadu State Board).
- Aadhaar Card or any other valid Photo Identity proof.
- Two recent passport-size photographs.
- Sports / Achievement Certificate with appropriate grading (for BPES admissions)

SEAT RESERVATION MATRIX

Reservation of seats is strictly governed by the rules of the Government of India and A&N Administration vide F.No. 7-4/JNRM/2018 dated 01/05/2018 and subsequent notifications from NSCBIHL.

Category	Reservation	Certificate Required
Scheduled Tribes (ST)	7.5%	Certificate from competent authority
Other Backward Classes (OBC)	27%	OBC Certificate from competent authority
Economically Weaker Section (EWS)	10% (additional seats)	EWS Certificate from competent authority
Persons with Disability (Divyang)	5% (horizontal)	Disability Certificate from competent authority
Wards of Ex-Servicemen / Central Govt. Employees (A&N residents)	1% (max. 1 seat per course)	Service Certificate + Domicile proof
Wards of JNRM Employees	1% (max. 1 seat per course)	Certificate from Principal, JNRM

Important: Seats vacant against reserved categories (ST, Divyang, Ex-Serviceman, Ward of JNRM) shall be filled by General Category candidates on merit basis. All reservation norms are subject to revision as per NSCBIHL / A&N Administration notifications.

INFRASTRUCTURE & FACILITIES

The JNRM campus offers a comprehensive academic, residential, and co-curricular facilities designed to support the holistic development of its students. The campus is under 24-hour CCTV surveillance and maintains a zero-tolerance policy on ragging, drug abuse and all forms of misconduct.

Academic Infrastructure

Smart Classrooms

State-of-the-art smart classrooms fitted with audio-visual projection systems and internet connectivity enable interactive and technology-enhanced learning.

Modern Laboratories

Dedicated, well-equipped laboratories for Chemistry, Physics, Botany, Zoology, Geography, and Computer Science. The Zoology Museum houses a unique collection of island specimens.

Computer Centre

A dedicated Computer Centre provides computing infrastructure, internet access and digital resources to students and faculty.

Auditorium & Lecture Gallery

A fully equipped auditorium and Lecture Gallery host seminars, guest lectures, cultural programmes and institutional events.

IGNOU Study Centre

An IGNOU Study Centre on campus extends distance education opportunities to the island community.

The College Library

The JNRM Library is a treasure-trove of knowledge, housing nearly 62574 volumes across all disciplines. It subscribes to approximately 70 academic journals and maintains a special collection dedicated to the Andaman & Nicobar Islands and Island Studies.

The Library is fully computerised. An air-conditioned reading room with Wi-Fi internet access is available for students and staff.

INFRASTRUCTURE & FACILITIES

Membership Category	Books Issued	Loan Period
Teaching Staff	8 books	6 Months (one semester)
Non-Teaching Staff	4 books	14 days
UG Students	2 books	7 / 14 days
PG Students	3 books	7 / 14 days

Reprographic services are offered at nominal charges. Access to over 31,417 e-resources like e-books, e-journals, and e-databases through UGC-INFONET (<https://ess.inflibnet.ac.in/>) is being operationalised.

Hostels – A Home Away From Home

JNRM maintains separate, well-supervised residential hostels for boys and girls, each with a capacity of more than 600 students. Hostel admission is priority-based, extended preferentially to students from remote islands. Both hostels are under CCTV surveillance.

Hostel	Capacity	Security Deposit	Duration
Boys' Hostel	285 students	Rs. 1,000/- (Refundable)	UG: 3/4 yrs PG: 1/2 yrs
Girls' Hostel	415 students	Rs. 1,000/- (Refundable)	UG: 3/4 yrs PG: 1/2 yrs

Sports & Physical Education Facilities

The college offers indoor and outdoor sports facilities supporting a wide range of sports and games. Students may avail the facilities of football stadium, volleyball and long tennis courts and indoor games room for Table Tennis, Badminton, Yoga etc. The college has active NCC units – Senior Division Boys (Infantry), Senior Division Girls (Infantry), and Naval Wing (Boys & Girls) – and five NSS units with a combined intake of 500 volunteers.

Other Campus Facilities

Campus Canteen providing affordable and nutritious meals to students and staff.

Campus-wide Wi-Fi internet connectivity.

24-hour CCTV surveillance across academic and residential areas.

Placement Cell for career guidance, internship facilitation, and campus interactions.

CONDUCT, DISCIPLINE & ANTIRAGGING

JNRM maintains ZERO TOLERANCE towards:

RAGGING | SEXUAL HARASSMENT | DRUG ABUSE | WEAPONS

Student Responsibilities

Students enrolled at JNRM are expected to conduct themselves with dignity, discipline, and respect for fellow students, faculty, and staff at all times. Students must familiarise themselves with the rules and regulations of NSCBIHL and the college, and shall abide by them in letter and spirit.

Anti-Ragging Policy

Ragging in any form such as verbal, physical, written, or electronic is strictly prohibited in the college campus and hostels. Any incident of ragging must be reported immediately to the Anti-Ragging Committee. Punishment for ragging, as per UGC Regulations on Curbing the Menace of Ragging in Higher Educational Institutions, 2009, may include suspension, expulsion, debarment from examinations, or criminal prosecution.

Attendance & Academic Conduct

Minimum attendance of 70% is mandatory in all papers.

Identity Card must be carried at all times within the campus.

Use of mobile phones is prohibited in classrooms, laboratories, library and examination halls.

Cheating, plagiarism, or falsification of documents is a punishable offence.

Students must maintain decorum in classrooms and all academic spaces.

IMPORTANT COMMITTEES

1. Academic / Admissions / Examination Committee

Oversees all academic and admission-related matters.

2. Anti-Ragging Committee (District Level)

Handles ragging complaints at district level.

3. Anti-Ragging Committee (College Level)

First point of contact for ragging complaints within campus.

4. Internal Complaints Committee (ICC)

Addresses complaints related to sexual harassment of women.

5. Student Welfare & Cultural Committee

Organises cultural, co-curricular, and welfare activities.

6. Placement Committee

Facilitates career counselling and campus interactions.

7. Mental Health & Well-Being Committee

Provides counselling and mental health support to students.

8. Anti-Drug Squad

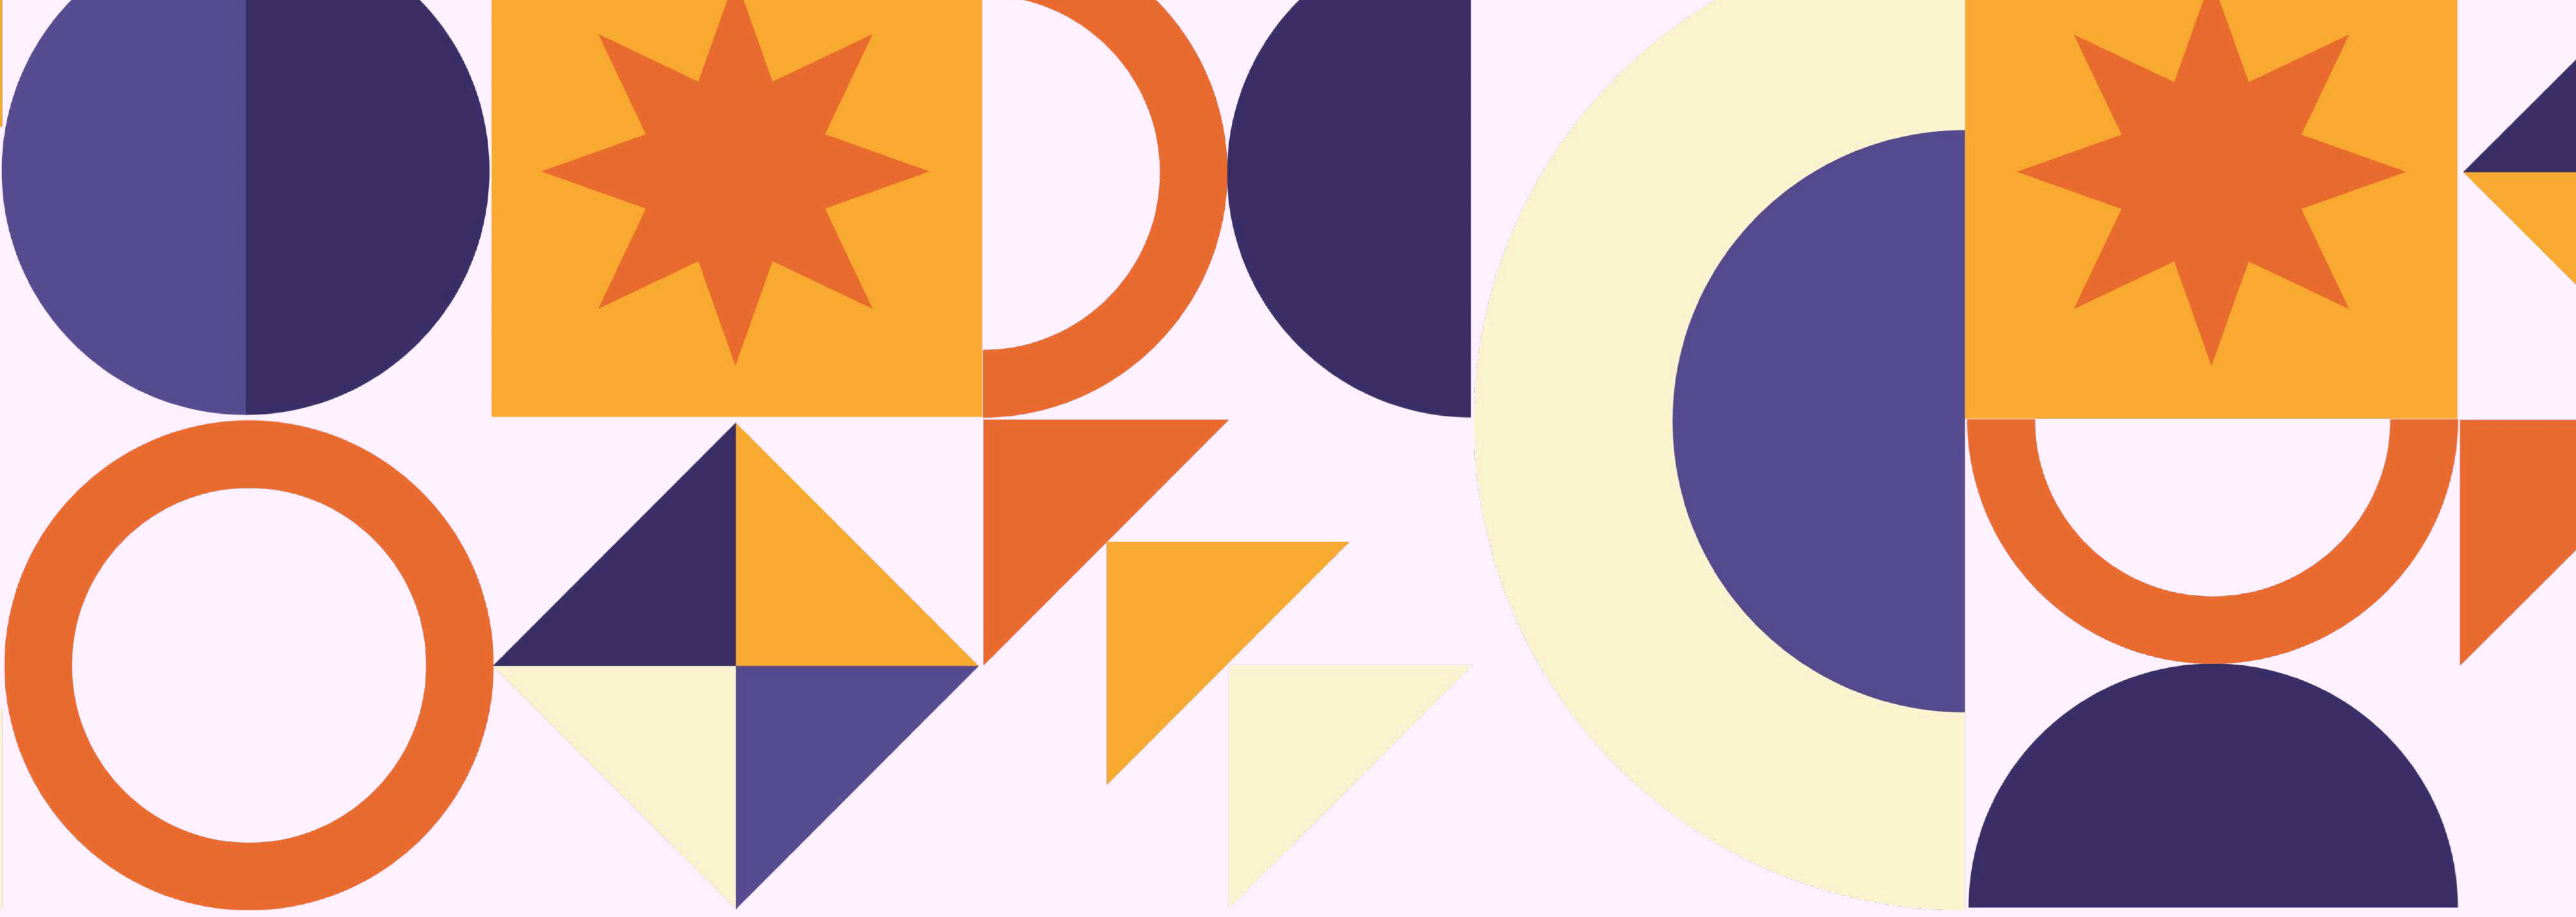

Reinforces zero tolerance message.

9. Disaster Preparedness Committee

Ensures campus readiness for natural and man-made emergencies.

10. ST & OBC Scholarship Committee

Useful to reserved category students.
